EDUCATION

Government P.G. College Dharamshala

B.Tech Computer Science and Engineering GPA: 7.37

Dharamshala
September 2022 - May 2026

Government Senior Secondary School Daroh

12th Class Non-Medical GPA: 96.8

Kangra
April 2021 - March 2022

EXPERIENCE

Meander Software Pvt. Ltd.

Data Science using Python

On-site
January 2026 - July 2026

- Worked with real-world datasets using Python to build machine learning models, create data visualizations, and explore deep learning concepts, utilizing libraries such as Pandas, Numpy, Scikit-learn, and TensorFlow.

NIELIT Ropar

Fundamentals of Data Curation Using Python

On-Site
June 2025 - July 2025

- Performed data curation and preprocessing using python to ensure hight-quality ,well-structured datasets.Utilized libraries such as Pandas and Numpy to clean, organize, and transform raw data, maintaining accuracy, consistency, and readiness for analysis and reporting.

Smarter Innovation

Data Science using Python

Online
September - November

- Worked on data analysis and modeling using Python by cleaning, preprocessing, and analyzing datasets. Utilized libraries such as Pandas, NumPy, Matplotlib, and Scikit-learn to identify patterns, build basic models, and generate insights to support data-driven decisions.

Udemy

HTML,CSS and JAVASCRIPT

Online
June 2024 - July 2024

- Developed and maintained responsive web pages using HTML,CSS and Javascript. Implemented clean layouts, styling and interactive features while ensuring cross-browser compatibility, performance optimization and adherence to web standards for an improved user experience.

PROJECTS

Skincare Recommendation System Python, Pandas, Numpy, Matplotlib, sickit-learn, Streamlit

Developed a skin care recommendation systemmm that analyzes user skin type and concerns to suggest personalized skincare products using data driven techniques.

Automatic Resume Parser Python,Angualr,Fast API,Google Gemini key,Chromadb

Built a resume parsing and candidate matching system that extracts skills, education, and experience from resumes using Google Gemini AI and performs semantic search using ChromaDB for efficient recruitment.

Face Mask Detection Python, OpenCV, Machine Learning

Built a computer vision project that detects whether a person is wearing a face mask, using OpenCV and machine learning techniques for real-time image analysis.

Virtual Keyboard JavaScript, HTML, CSS

Built an on-screen virtual keyboard offering a touch and accessibility-friendly input experience for web applications.

TECHNICAL SKILLS

Languages: Python, Machine Learning, HTML/CSS

Framework: Flask, Streamlit

Developer Tools: Git, Github, Hugging Fcae, Render , VS Code

Libraries: Pandas, Numpy, Matplotlib, Seaborn, sickit-learn,OpenCv
